

*Thank you for considering Elder Love USA for your caregiving needs. We are the **ONLY nonprofit** caregiving organization in the area. I founded Elder Love USA in 2016, when as a gerontological social worker, I saw countless, hard working people needing help at home, but not being able to afford it. As a nonprofit organization, we are able to keep our minimum hours and costs low through the generosity of individuals, corporations, city and county funding, and fundraising events.*

As a smaller organization with less staff, it may not be possible for us to start care immediately. We are always hiring and will make every effort to match your preferred schedule. If you or your loved one has urgent care needs or is bed bound, I urge you to reach out to one of the larger organizations as they may be better equipped to start care ASAP.

Elder Love USA, Inc. Electronic Visit Verification Signature Authorization

Patient/Client Name: _____ Date: _____

Electronic Visit Verification (EVV) is a method used to verify home healthcare visits to ensure patients are not neglected and to cut down on fraudulently documented home visits. EVV is required by most states for most providers as part of the 21st Century Cures Act.

EVV applies to care and health services rendered in the home. States are required to implement EVV for all personal care services and home health services that require an in-home visit by a provider. EVV systems are secure and compliant with the Health Insurance Portability and Accountability Act (HIPAA). EVV is a telephone and computer-based solution that electronically verifies in-home service visits.

EVV solutions must verify the following six data elements:

- Type of service performed
- Individual receiving the service
- Date of the service
- Location of service delivery
- Individual providing the service
- Time the service begins and ends.

WellSky software also offers a benefit called **The Family Room** (a free and secure access portal) that gives loved ones access to the client care calendar and shift notes, plus the ability to pay or split a portion of the bill. I wish for the following individuals to have access:
